## IMPLEMENTATION

- Simplified version with limited actions

## COLLABORATION

- Not supported for different users

## ACCESSIBILITY

- Local usage

# NOW

# FUTURE

## IMPLEMENTATION

- Fully extended actions

## COLLABORATION

- Supported for multiple users on repos

## ACCESSIBILITY

- Deployed architecture with high accessibility & availability

# SUMMARY

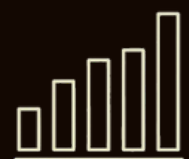

Functional distributed VCS developed from scratch

Complete ecosystem integrating CLI, backend and web interface

Practical tool for repository management and VCS learning

Foundation for future analytical capabilities
